

PRECISION PRODUCTION

HSTEC offers prototype and small batch production of high precision machine parts

Possibilities:

- Air-conditioned production facility
- Classic turning and CNC turning
- Classic milling and CNC milling
- Fine surface grinding
- Fine jig boring machining
- 3D coordinate measuring machine ZEISS

Advantages:

- Technology development
- Short delivery time
- Low price
- Flexibility
- Own transport

Turning	Universal turning machine CNC turning machine TRAUB TNA480 CNC turning machine MONFORTS RNC 500 CNC turning machine DMG MORI CTX 510 ecoline
Milling	Universal milling machines
Vertical machining center	4-axes CNC machining center MIKRON 3-axes CNC machining center HURCO 4-axes CNC machining center DMG MORI DMC 1035V ecoline
Horizontal machining center	4-axes CNC machining center HELLER MC16 4-axes CNC machining center HAAS EC1600
Jig boring machine	Horizontal jig boring machine DIXI 75F with rotary table
Grinding	Fine cylindrical grinding machines KELLENBERGER U1000 and U1500, Cylindrical grinding machine FORTUNA, Surface grinding machine CAMUT, CNC grinding machine KELLENBERGER KEL-VIVA, Surface grinding machines ELB smart BD15 comfort and ELB smartline N10 HYD comfort
Quality control	EN ISO9001:2008, air-conditioned department for measuring and control with ZEISS CONTURA G2
Miscellaneous	Heat treatment, sandblasting, paint stripping
